

MEDIA RELEASE

Three in a Row - Ai-Media Scores Over 99% in Captioning Quality Audit

20 November 2014

Speech-to-text innovator Ai-Media has scored 99.21% in its latest independent external captioning quality audit, as measured by the international NER benchmark. The result is the Company's third score in a row of greater than 99%.

Ai-Media provides captioning for broadcasters including Nine Network Australia, Foxtel, Fox Sports, Australian News Channel (Sky News), and others. The audit result announced today is for Ai-Media's third quarter of service to the Nine Network ending September 2014, based on an independent auditor scoring 13 programs at random.

Ai-Media's clients were recently recognised at the Deafness Forum of Australia's Captioning Awards with Foxtel, Nine Network Australia and Victorian Deaf Education Institute taking awards.

Ai-Media is also growing rapidly in the UK with its Ai-Live speech-to-text service for the corporate, government and education sectors.

About Ai-Media:

Ai-Media is an Australian and UK-based for profit social business that provides high quality speech-to-text solutions for broadcast, government and education clients. The company's Ai-Live internet captioning service was supported by Commercialisation Australia. Using a microphone on the original speaker, the spoken words are sent live to a trained stenocaptioner or "re-speaker", who uses software that converts speech into text that is sent back over the internet to screens read by the client.
